Even "the Eviscerator" has a pretty good career in Tal Abisi, considering she is very much dead. She gets her assignment, they get shipped nice and quick with her two curved knives, and she gets to keep walking and talking. The undead can't sleep, but who needs that, really? It just makes her more efficient at the job. Besides, there's plenty of entertainment at the rambunctious Festival of the Clockwork King.

Everything's going swimmingly until her latest contract turns out to share a few too many things with Even, including her face. Even can't remember her life before being an undead thrall—it's part of the deal—but still, you can't just murder someone who might be you! But the third rule of the goddess of assassins is to always finish the job. And the goddess always claims her due.

So Even's left dodging competitor assassins, toppling innocent stepper birds, and high-tailing it through the winding streets of an ancient city full of traps, all while uncovering a conspiracy that takes her up to the goddesses

Antsy is the latest student to pass through the doors at Eleanor West's School for Wayward Children.

When the school's (literally irresistible) mean girl realizes that Antsy's talent for finding absolutely anything may extend to doors, Antsy is forced to flee in the company of a small group of friends, looking for a way back to the Shop Where the Lost Things Go to be sure that Vineta and Hudson are keeping their promise.

Along the way, they will travel from a world which hides painful memories that cut as sharply as its beauty, to a land that time wasn't yet old enough to forget—and more than one student's life will change forever.

Mislaid in Parts Half-Known is a story that reminds us that getting what you want doesn't always mean finding what you need.

Leslie Bruin is assigned to the backwoods township of Spar Creek by the Frontier Nursing Service under its usual mandate: vaccinate the flock, birth babies, and weather the judgements of churchy locals who look at him and see a failed woman. Forged in the fires of the Western Front and reborn in the cafes of Paris, Leslie believes he can handle whatever is thrown at him—but Spar Creek holds a darkness beyond his nightmares.

Something ugly festers within the local congregation, and its malice has focused on a young person they insist is an unruly tomboy who must be brought to heel. Violence is bubbling when Leslie arrives, ready to spill over, and he'll have to act fast if he intends to be of use. But the hills enfolding Spar Creek have a mind of their own, and the woods are haunted in ways Leslie does not understand.

Two Worlds. Two Minds. One Life.

There are two Earths. Perfectly ordinary and existing in parallel. There are no doorways between them, no way to cross from one world to another. Unless you're a shifter.

Canna and Lily are the same person but they refuse to admit it. Their split psyche has forced them to shift randomly between worlds – between lives and between families – for far longer than they should. But one mind can't bear this much life. It'll break under the weight of it all. Soon they'll experience their final shift and settle at last in one world, but how can they prepare both families for the eventuality of them disappearing forever?

Twice Lived is a novel about family and friendships, and about loss and acceptance, and about the ways we learn to deal with the sheer randomness of life.
